READING COMPREHENSION

I. Reading the following passage then answer the questions by circling the letters A, B, C or D

Except for a few unfortunate individuals, no law in this world can go against the fact that for most of us our family is an essential part of our lives. The moment you enter this cruel world, where each man is for himself, there are some near and dear ones out there who will do anything to ensure your happiness.

We are nothing more than a vulnerable and fragile object, without someone taking care of us on our arrival in this world. Despite all the odds, your family will take care of your well-being, and try their best to provide you the greatest comforts in the world. No one out there, except your family must forgive the endless number of mistakes you may make in your life. Apart from teaching you forgive and forget lessons, they are always there for you, when you need them the most.

Family is the only place where children study a lot after school. In school, teachers teach children about the subjects which will help them to find a good job in future. But at home, parents teach children about good habits. **They** are not only the elements which help the children to shape their personalities but they also prepare them a sustainable and bright future.

A good family makes a greater society. Father, mother, children have to work in order to build a strong family. If any one of them fail, the whole family may collapse. The good name of the whole family can be **ruined** by a single member of the family. In order to avoid that unhappy scenario, every family member has to work hard and try their best. As a result, they will set good examples for the whole society. Families impacts very much on society and societies create countries.
